Objet : **Postdoc positions at ENSIIE, France**
Date : 28 février 2011 19:22:57 HNEC
À : tccc@lists.cs.columbia.edu

Dear Colleagues,

Please find attached an opportunity that I hope is of interest. Please do not hesitate to forward it to potential candidates.

Kind Regards,
Yacine.

ENSIIE, France, in the context of the ITEA-2 DiYSE European project (<http://www.dyse.org>) has a postdoc position to works on topics related to "wireless sensor networks" and "Internet of Things". The post-doctoral fellow is expected to join a team of several researchers, at ENSIIE and University of Paris-Est (LIGM Lab), that are already working partly or entirely on the project.

The successful applicant must have a PhD in Computer Science, Electrical Engineering or in a closely related field. She/he is expected to display a track record of accomplishments in the field. Good verbal and written skills in English are required. The candidate are expected to publish scholarly work in top peer reviewed conferences and journals. It is also expected that the post-doctoral fellow participates to the European project by attending meetings and contributing to deliverables.

The starting date will be determined by mutual agreement and preferably before April 1, 2011. The initial contract will be for 11 months (with a possibility of extension). The net salary is in the range of 2000 to 2500 Euros/month depending on experience.

Applicants should e-mail their resume with a list of three references and links to 2-3 representative published papers. Applications will be accepted until the position is filled. For more information, contact: Dr. Yacine GHAMRI-DOUDANE (ghamri@ensiee.fr).
